

### Community in Chemistry

The Department of Chemistry and Biochemistry has a learning community for interested chemistry majors that provides holistic student support through a special FYS course designed for college success. It also enables you to get to know other chemistry majors, form study groups with peers, and build a community of chemistry learners. Therefore, you are registered **in the same class sections of FYS & CHEM courses with other first-year chemistry majors.**

### Fall Schedule for Chemistry Majors

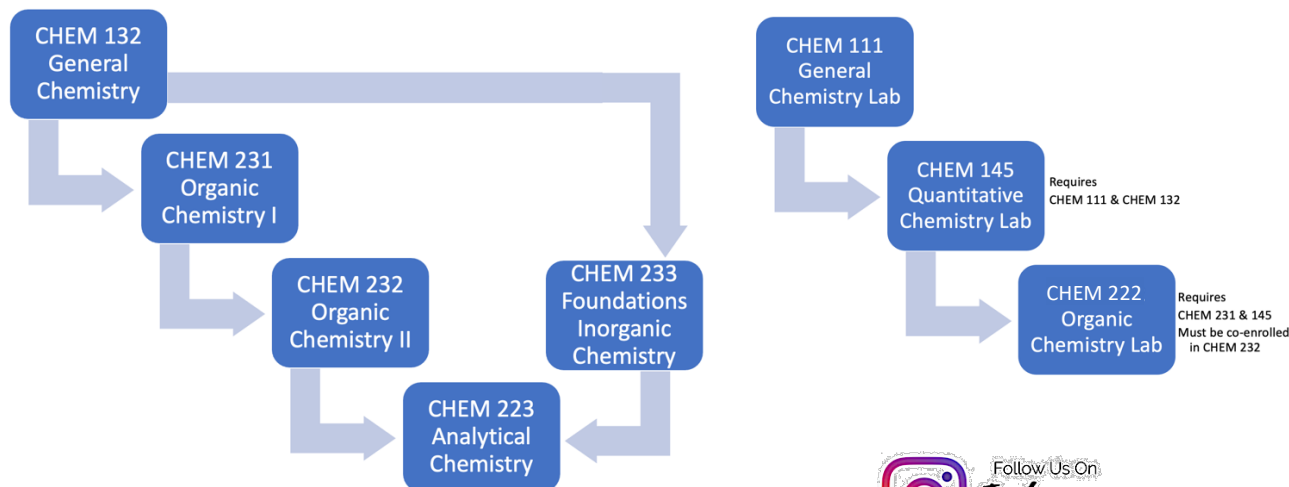

You should register for 14-15 credit hours in these specific classes:

- ✓ **CHEM 132.002 General Chemistry** (CRN #60148) – 3 credit hours  
Mondays, Wednesdays, Fridays 9:30-10:20 am & Fridays 3:30-5:30 with Professor McMahon
- ✓ **CHEM 111.002 General Chemistry Lab** (CRN #60144) – 1 credit hour  
Tuesdays 1:20-4:20 pm with Professor Majeed
- ✓ **FYS 178.003 First Year Seminar: Science and Practice of Learning and Thriving in College** (CRN# 60519) – 3 credit hours  
Tuesdays & Thursdays 9:55 am -11:10 am with Professor Wasileski
- ✓ MATH 167 Pre Calculus or MATH 191 Calculus I  
based on placement, enroll in any section that fits your schedule – 4 credit hours
- ✓ Any other 3-4 credit hour course of your choosing, such as  
an elective in an area of interest to you  
LANG 120 Academic Writing and Critical Inquiry or HUM 124 Ancient World

this First Year Seminar course is specially designed for incoming chemistry students as part of a National Science Foundation funded student-success program

### What if I have credit for some of the classes above?

If you already have credit (AP or college credit) for some CHEM courses, you should register for the next course in the chemistry major curriculum.
